

Sunday School—**LIKE NO OTHER**[®]

Lesson 0

The introductory clip

You just started the intro clip for the Sunday school like no other.

A series of short clips that will give you a unique education. Those who take this Sunday school course will have an opportunity to take part in a miracle that stands up to the critics.

That miracle is seeing God in action. Believers, those I refer to as Believers, namely those who believe in the God of Abraham, will see one of their most precious beliefs proven: That He is the one God.

One certain proof would be in showing He has only one message. Christians took Jesus at his word when he said he didn't come to change the scriptures but to fulfill them. Early Christians seamlessly folded the Old Testament into the New. The God of Jesus was the God of Abraham. One God One Message. No question.

Of course, non-messianic Jews rejected that idea and saw a very different God revealed in the second volume of His message. That volume we commonly refer to as the New Testament. These 2 major world religions remain at odds over the debate that there is only one message.

But this division pales in comparison to the wildly divergent messages seen by Muslims and Christians in the third volume of the message, the Koran. Even though the Koran makes the same promise as Jesus that it teaches no new doctrine. So we have the world sharply divided among 3 groups of believers with 3 volumes of the supposed word of God all arguing and fighting with each other.

Either we've got it all wrong about God or we've got it all wrong about His message. This course will show we have it right about God and how we can get it

right about His message. There is only one God. He has given us only one message. Moreover he has protected it.

The short clips in this course will carefully go over the actual words of His message to show, one word and one verse at a time that all the basic concepts and teachings of all 3 volumes do not contradict but rather support and clarify each other.

This course will be as challenging as anything you have ever heard. The first few clips of this course will show that the most important message of the Gospel, namely that the grace of God that comes through His Messiah, Jesus, is not only acknowledged in the Koran but is one of its basic truths in understanding the rest of that third volume.

Christians who view the clips will have a hard time believing it because they have no idea of what is actually in the Koran, having heard only other people's, usually negative, opinions. Muslims who know the Koran and some Arabic, who view the clips will have a chance to tell me if they think I am wrong. But everyone who values or even wonders about the truth of the Word of God should take this course.

The course will also address the Koran's warning to modern day Christians about how they have been taught to misunderstand the Trinity. The misunderstanding that would make Jesus cry if he attended about any worship service and puts serious distance between Christians and a closer relationship with God.

These 2 issues, the sacrifice of Christ and the 3-god Trinity, "shirk" in Arabic, are basically the only substantial things separating Christians and Muslims from referring to each other as Brother and Sister—what the Koran calls the Bible Family, *ahl al Kitab* in Arabic. In fact, the Koran commands Believers to get into the word of God and show the 3 volumes to be one message.

God won't ask or tell you to do something that can't be done. He won't tell you to do something that shouldn't be done. He won't tell you to do something and not provide for you to get it done. This course will show us the faithfulness of God.

Of course, some things are going to get trampled on. What won't get trampled or in any other way abused will be God's 3 volume message. Every verse and every word will be taken as Holy and thereby His will. In His infinite wisdom, though, He chose to use a very slippery form of communication: words. God chooses words because He can use them throughout history to convey layers of meaning. Your first fully interactive text.

And, of course, again, men and demons can corrupt and twist words for their own purposes. Sad to say, all of us who use words are prone to the corruption agenda. If you follow along in this course you will be wise to carefully consider the reasons and proofs given for the understandings and the equalizations. Especially when you see some longstanding traditions called into question. . .those traditions which don't equalize God's message.

Those who continue on with this school and discover the understandings of the equalization process becoming obvious and precious to them will not only be much stronger and better Believers and Servants of our Almighty God but will be members of The Bible Family—a family bond that unites Believers into one kinship who will share eternity together. These family members, the ahl, from each group, Jews, Christians, Muslims and others, adding their own facets to the infinite gem of the praise and worship of God.

It is also of great importance that the amazing unification of believers from the unification of God's message can be a mighty force for the rejection of many of the crazy distortions of parts of God's message that lead men to do great evil. So, if you are listening to this, give it serious thought and prayer. And encourage others to do likewise. On to lesson 1, God willing.[©]
